

20W LED Street Lamp / LED Road Light

FEATURE:

1. Beautiful appearance, easy installation, good universality and wide range of application
2. Energy saving high power LED lamp to replace the of conventional CFL, HPS and LPS lamps
3. Sturdy aluminum housing
4. Integrated heat-sinking design
5. Fast turn on, no warm-up or cold start problems
6. Long lifespan, up to 50, 000 hours
7. Environmentally friendly, contain no mercury or toxic and flammable glass, last longer and produce less waste; they are made from full recyclable materials
8. Vibration and impact resistant; No UV and reduce IR radiation

APPLICATION:

Replacement of the traditional lighting, especially for city streets, pavements, squares, schools, parks, yards, inhabitancy area, factories and some other places where need lighting.

Model

Input	EN-L5-20W
Light source	voltage 12V
Quantity of LED	LED
Size	1PCS
Luminous Flux	540*250*150mm
Main Material	2000lm
Color Temperature	Aluminum
Illumination	2700-7000K
Effective light angle	100lm/Watt
Power Efficiency	140 O
Power Factor	>90%
Life-span	>0.98
Certification	>50,000 hours
	CE
